1/ Based on Claims Data
2/ The increase in expenditures for clinic care for New York City from 1977 to 1978 is partially due to the improved accuracy of categorizing claims by the MMIS System.
3/ Negative values in "All Other" represent undistributed refunds for all types of care.

1/ Excludes children cared for by institutions or agencies providing temporary or special services such as schools for the blind and deaf, convalescent homes, and temporary shelters.

2/ Includes children from outside New York; consequently, the totals for New York State are greater than the sum of the figures for New York City and Rest of State.

3/ The apparent decrease in the "Other" category is due to changes in processing methodology under the CCRS System.
